WICHTIGE SICHERHEITSHINWEISE / IMPORTANT SAFETY NOTICE WARNING / IMPORTANT NOTICE de SECURITE

VERBODENSAANMERKEN:

Wie bei der Nutzung aller anderen Fortbewegungsmittel gibt es beim Scooterfahren auch Risiken, und man muss möglicherweise in gefährliche Situationen geraten. Lesen Sie vor dem Fahren das gesamte Anleitungs-Buchlein. Beachten Sie insbesondere folgende Hinweise:

1. Tragen Sie immer geeignete Schutzkleidung wie einen durch die TÜV zugelassen Helm, Ellenbogenschützer, Knie- und Handgelenkschützer, langärmelige Oberhose, Handschuhe, lange Hose.
2. Tragen Sie immer geschlossene Schuhe und vermeiden Sie sich vor dem Fahren, dass diese fest gesteckt sind. Fahren Sie nicht barfuß oder mit Sandalen.
3. Beachten und befolgen Sie stets alle örtlichen Gesetze und Vorschriften bezüglich der Nutzung von Scootern im Straßenverkehr. Halten Sie sich von Kraftfahrzeugen fern und passen Sie auf Fußgänger auf.
4. Nehmen Sie niemals Veränderungen an diesem Produkt vor. Verwenden Sie keine Ersatzteile, die nicht im Lieferumfang des Scooters enthalten sind.
5. Fahren Sie den Scooter nicht einhändig, sondern immer mit beiden Händen. Halten Sie sich an der Lenkstange mit beiden Händen fest.
6. Fahren Sie mit dem Scooter keine enge oder scharfe Kurven, und legen Sie den Körper nicht beim Fahren einer Kurve auf die Lenkstange, da sich die Lenkstange drehen kann, was zum Verlust der Kontrolle über den Scooter führen kann.
7. Fahren Sie mit dem Scooter nicht auf asphaltierten oder unebenem Untergrund, da PU-Rollen unkontrolliert von der Fahrbahn rutschen können. Meiden Sie Straßen und Flächen mit Wasser, Sand, Kies, Schmutz, Blättern und anderen Abfallgeräten. Das Weiterbewegen der Bodenhaltung des Benutzers und die Schmutzabfuhr.
8. Fahren Sie mit dem Scooter niemals steile Hügel hinunter, da dadurch das Gerät beschädigt oder Bodenversagen verursacht werden kann. Beim Befahren solcher Bereiche ist Vorsicht geboten. Vermeiden Sie überhöhte Geschwindigkeiten bei Abfahrten.
9. Fahren Sie den Scooter ausschließlich in flachen und ebenen Gelände. Fahren Sie mit dem Scooter nicht in freudlosen und unebenem Gelände mit Steinen oder Kies. Fahren Sie mit dem Scooter außerdem unter keinen Umständen in der Dämmerung, Nacht oder bei Regen und Eiskälte.
10. Meiden Sie starke Bodenwellen, Straßeneinfahrten und abrupte Änderungen der Bodenoberfläche. Der Scooter kann plötzlich zum Stehen kommen.
11. Prüfen Sie vor Verwendung des Produkts durch Drehen des Bremsepedals, dass die Bremsen funktionieren. Das Bremsepedal kann nach Tagen festgefressen sein. Bedienen Sie das Bremsepedal nicht nach dem Bremsen, da dies zu Verletzungen führen kann.
12. Drehen Sie die Lenkstange nach links und rechts und vergewissern Sie sich, dass sie sich entriegeln lässt und leichtgängig bewegbar bleibt. Prüfen Sie vor der Fahrt mit dem Scooter auch, ob die Lenkstange stabil befestigt ist.
13. Kinder und Jugendliche unter zwölf Jahren sollten immer unter der Aufsicht von Erwachsenen fahren. Die Aufsichtsperson sollte den Scooter vor dessen Verwendung prüfen und zur Verwendung von fälschlich eingeschalteten oder nicht zulässigen Ersatzteilen warnen.
14. Aufgrund der Verletzungsgefahr durch Querschnitte oder Entzündungen bei der Montage des Scooters darf die neue Montage und Justierung durch Kinder oder die Hilfe eines Erwachsenen erfolgen. Gehen Sie bei der Montage nicht an die Haltermechanismen, die die Haltermechanismen der Haltermechanismen der Finger und anderen Verletzungen zu vermeiden. Vergewissern Sie sich, dass alle Teile zusammengebaut und sicher befestigt sind.
15. Die Haltermechanismen der oberen Bremseinschraubmechanismen kann zu Verletzungen führen.
16. Einsetzen von und/oder beschädigte Teile umgehen.

1. Always wear proper protective equipment, such as an ANSI, SHL, CPS, or ASTM approved helmet, elbow pads, knee pads, long sleeve shirts, gloves, long pants.

2. Always wear fully enclosed shoes, making sure they are done up properly before riding. You must not ride barefoot or in sandals.

3. Always follow and obey all local traffic & scooter riding laws and regulations. Stay away from motor vehicles and watch out for pedestrians.

4. DO NOT make any modifications on this product. DO NOT use any attachments that are not included with the scooter.

5. DO NOT ride the scooter with only one hand. You must hold on to the handlebar with two hands tightly.

6. DO NOT make a short or sharp turn when riding the scooter, and DO NOT lay your body in the handlebar when making a turn as the handlebar of the scooter can twist, and may cause loss of control.

7. DO NOT ride the scooter on slippery or wet ground, as PU wheels can slip out of control. Avoid streets and surfaces with water, sand, gravel, dirt, leaves and other debris. We weather resists traffic, braking and sliding.

8. DO NOT ride the scooter on steep slopes, as it can damage the unit or cause brake failure. Riders must be careful when passing such areas. Avoid reverse speeds associated with downhill riding.

9. Ride the scooter only on flat and level ground. DO NOT use the scooter on wet and uneven ground with rock or gravel. In addition, DO NOT use the scooter at night or in wet or icy conditions.

10. Avoid sharp bumps, drainage grates and sudden surface changes. Scooter may suddenly stop.

11. Press the brake pedal to ensure the brake is functioning before use. The brake pedal may be too after continuous use. DO NOT touch after braking as it may cause harm.

12. Turn the handlebars to left and right to make sure it works properly and securely. Also check if the handlebar is fixed tightly before riding the scooter.

13. All children and persons should ride with adult supervision at all times. The supervisor should inspect the scooter prior to starting to use, making sure all parts are fully assembled and properly secured.

14. Due to the possible risk of laceration or entrapment while assembling the scooter, adults must assist children in the final assembly & adjustment procedure. Keep fingers away from moving parts at all times. Mechanisms during assembly are to not risk pinching or entraping fingers and causing injury. Make sure all components are assembled and secured properly.

15. The holding mechanism of the upper brake screw mechanism can lead to injuries.
